

EXHIBIT A

COLLATERAL TO BE SOLD

The Collateral to be sold consists of all of Debtor's right, title and interest in and to the following property (“Collateral” or the “Stock”):

- 2,000,000 shares of common stock in Dr. Sebi’s Office, a California corporation (the “Issuer”), representing at least 48%¹ of the issued and outstanding, fully-diluted stock in Issuer.

***** more information about the assets to be sold can be obtained by contacting Todd Wohl at Braunco, Inc.: todd@braunco.com; (866) 568-6638, ext. 100 *****

¹ At the time of the auction, there will be outstanding stock options, which if exercised, would result in the Collateral representing 48% of the outstanding, fully-diluted stock in Issuer. If such options are not exercised, the Collateral would represent 50% of the issued and outstanding, fully-diluted stock in Issuer. The Issuer expects that such outstanding stock options will be exercised, however.
